We believe that all children can learn to read. They just need the right tools, explicit teaching, support and practice to feel successful. Children engage with learning when they experience success.

About Little Learners Love Literacy

Little Learners Love Literacy is an explicit, multi-sensory literacy program and unique Australian resource designed to teach children the first steps of reading and spelling. It focuses on 'phonemic awareness and alphabet knowledge' giving children the skills they need to read, spell and write with confidence.

***Little Learners Love Literacy* is a whole class approach as well as a second and third tier intervention program.**

About the Workshop

In the *Little Learners Love Literacy* workshop, the presenter will demonstrate this systematic and dynamic early literacy program. The workshops explain the pedagogy and research underpinning the program and give teachers the tools to use the program effectively. *Little Learners Love Literacy* focuses on explicitly teaching phonemic awareness and phonics using teaching strategies that ensure all children participate with success.

This presentation will inspire you to teach with purpose and understand the process of learning to read and spell.

The how and why of the seven stages of the *Little Learners Love Literacy* program will be demonstrated along with the linking of reading and spelling.

This is a great opportunity to ask the questions and find out how to achieve the best literacy outcomes for your students.

This workshop can be used to meet the requirements for APST: 1.5, 1.6 and 4.1
